DonBosco Attendance Management System - User Manual

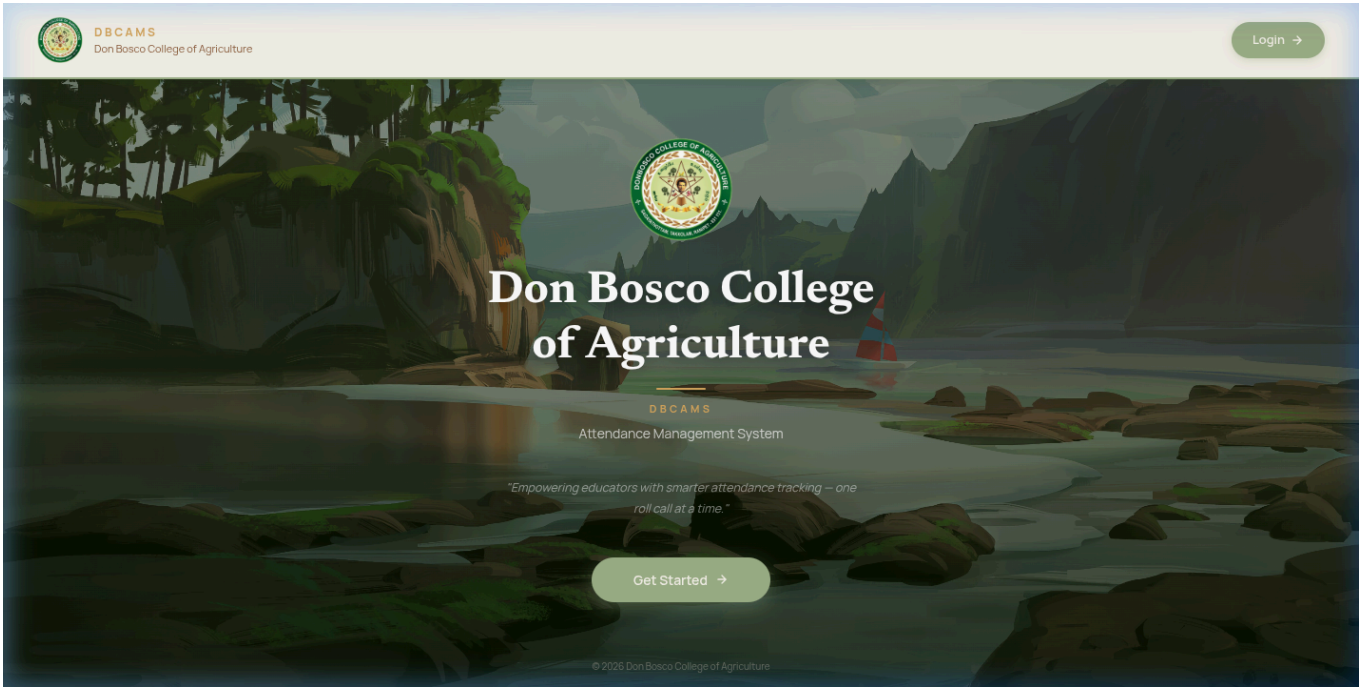

Welcome to the official user manual for the DonBosco Attendance Management System. This guide provides a detailed walkthrough of all features, roles, and workflows within the application.

---

1. Public & Authentication

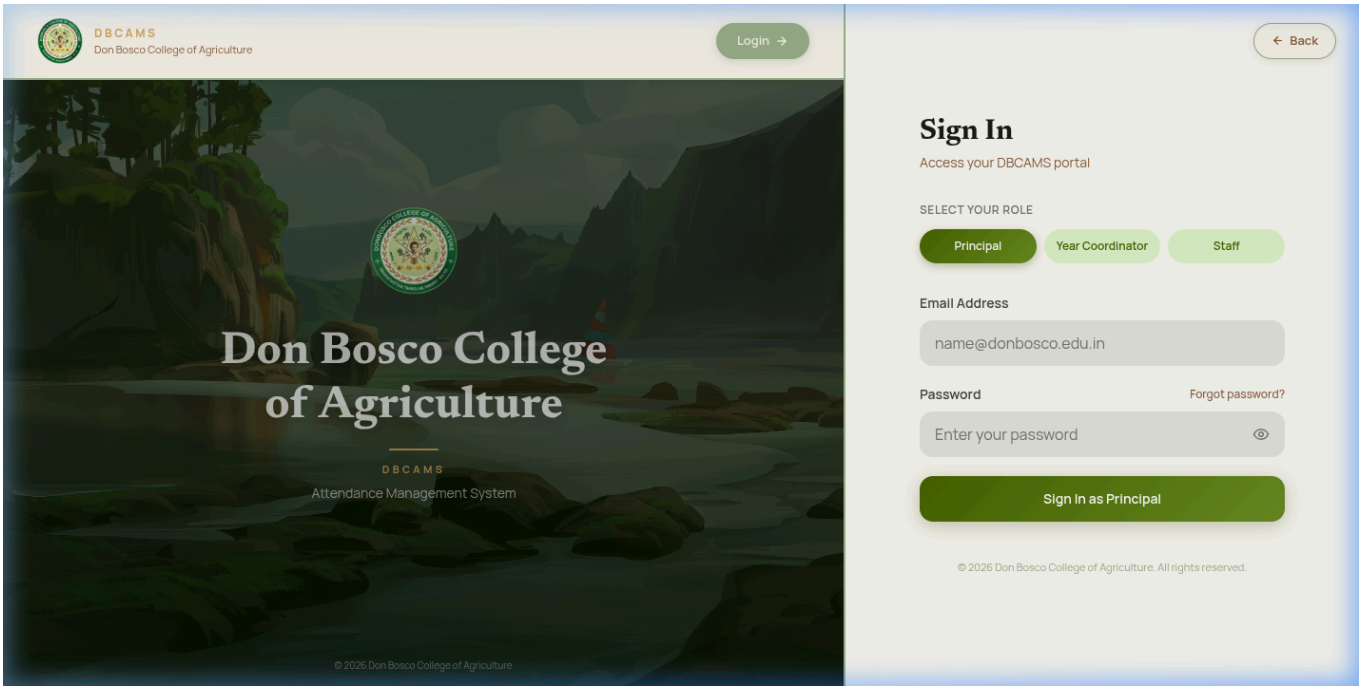

1.1 Landing Page

The landing page serves as the entry point for all users. It features a modern, clean design with easy access to the login portal.

1.2 Login Page

Users can securely log in using their registered email and password. The system supports three roles: Principal, Year Coordinator, and Staff.

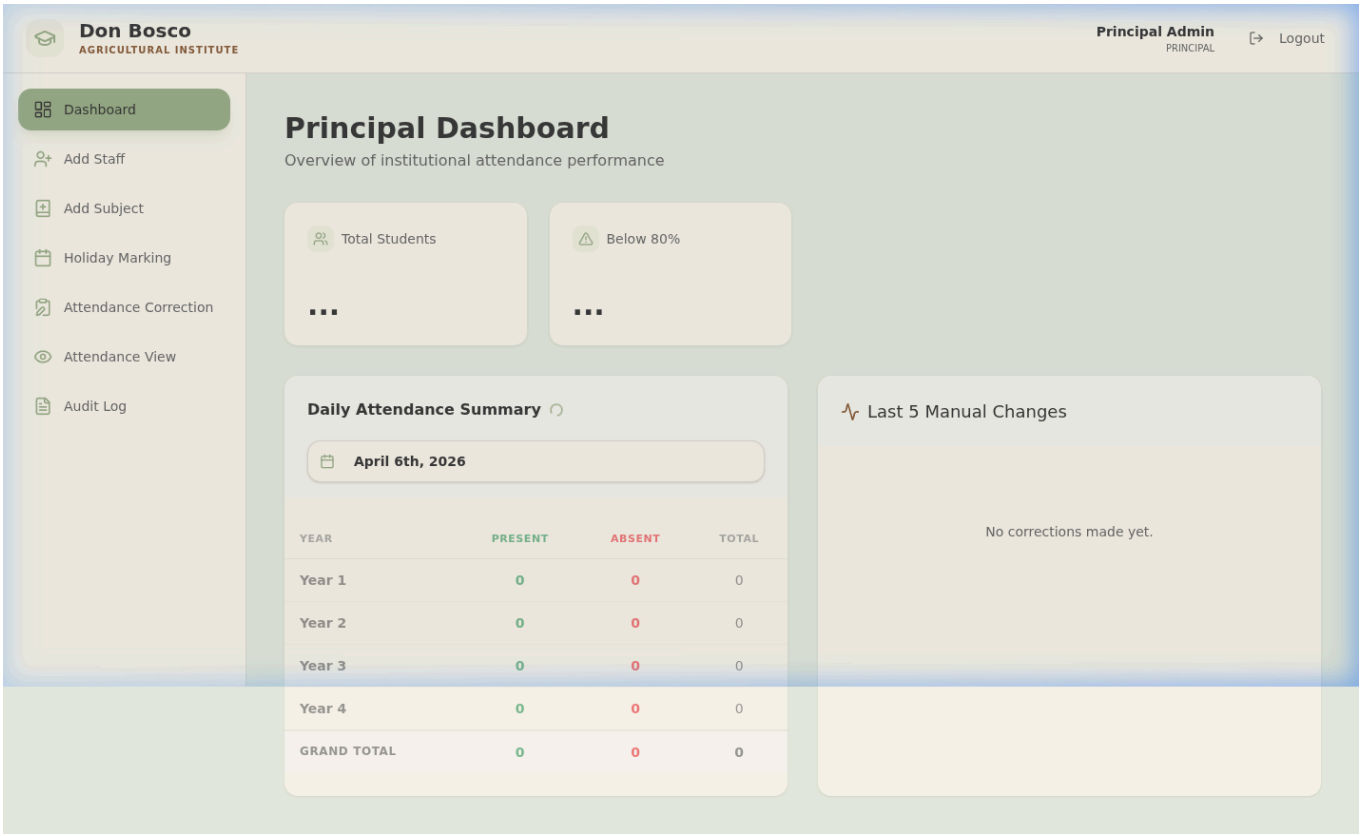

2. Principal Role

The Principal has full administrative control over the institution's data, including staff, subjects, and global settings.

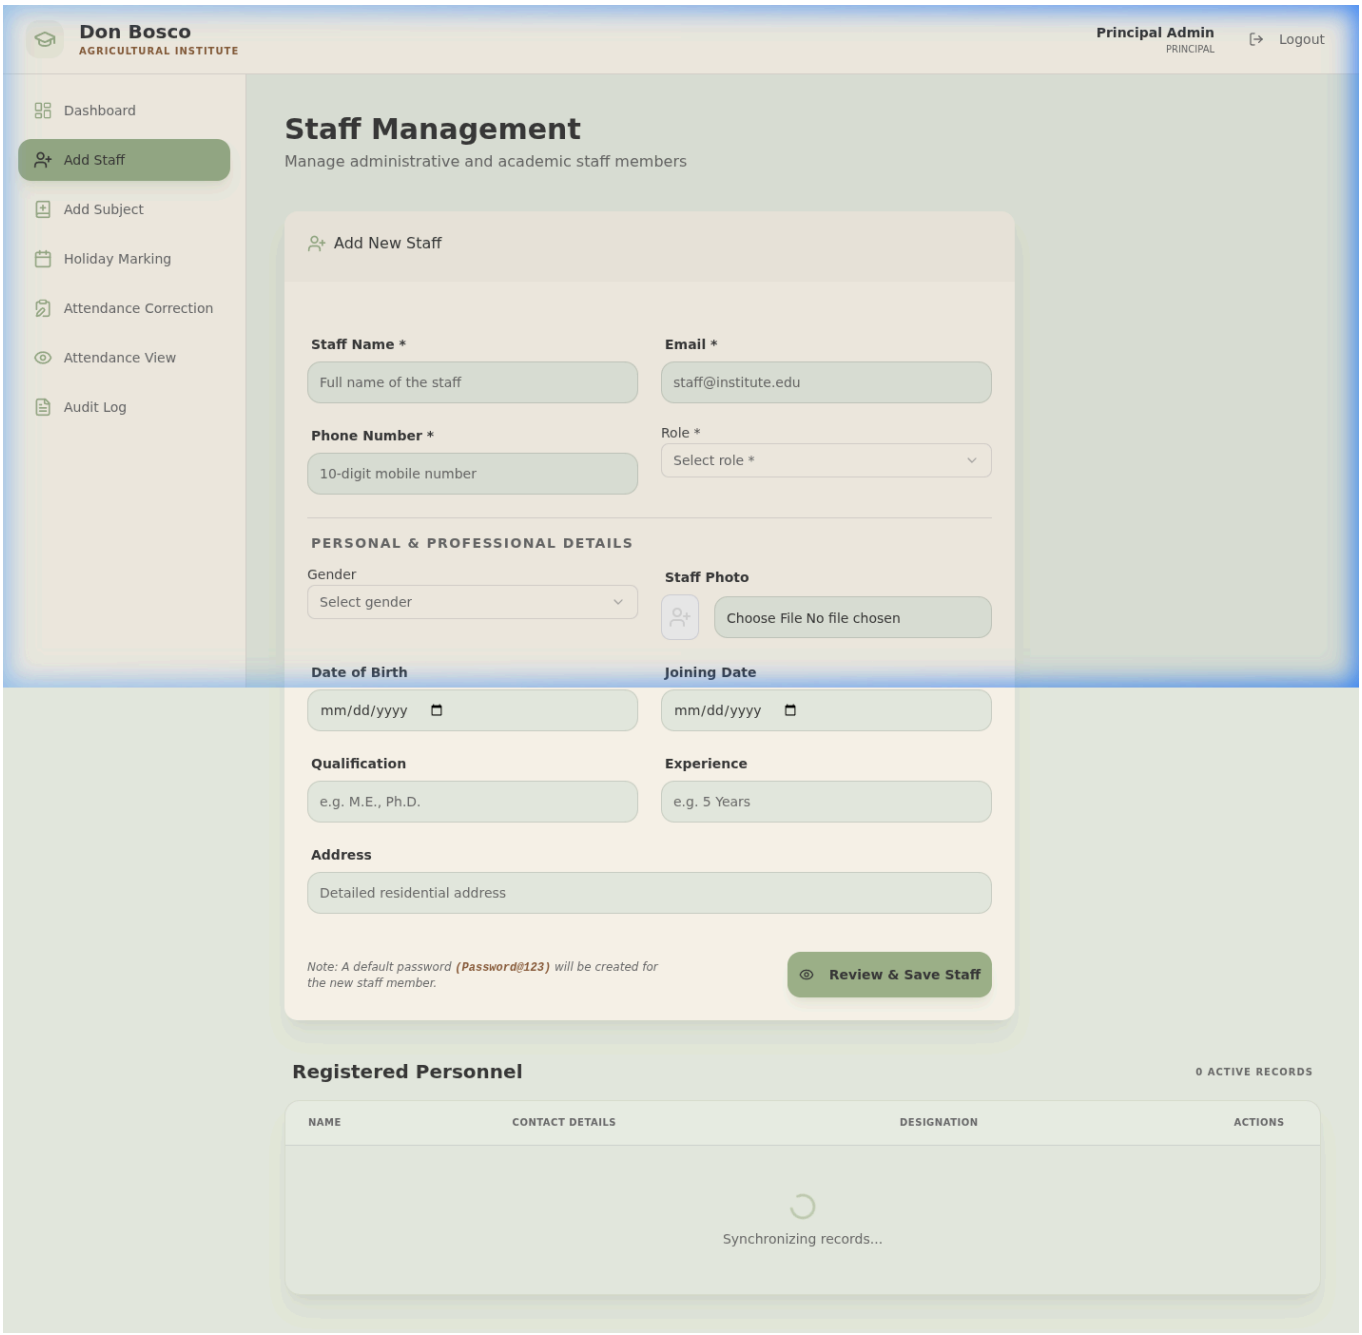

2.1 Principal Dashboard

Provides a high-level overview of institutional attendance performance, including total students, low-attendance alerts, and daily summaries.

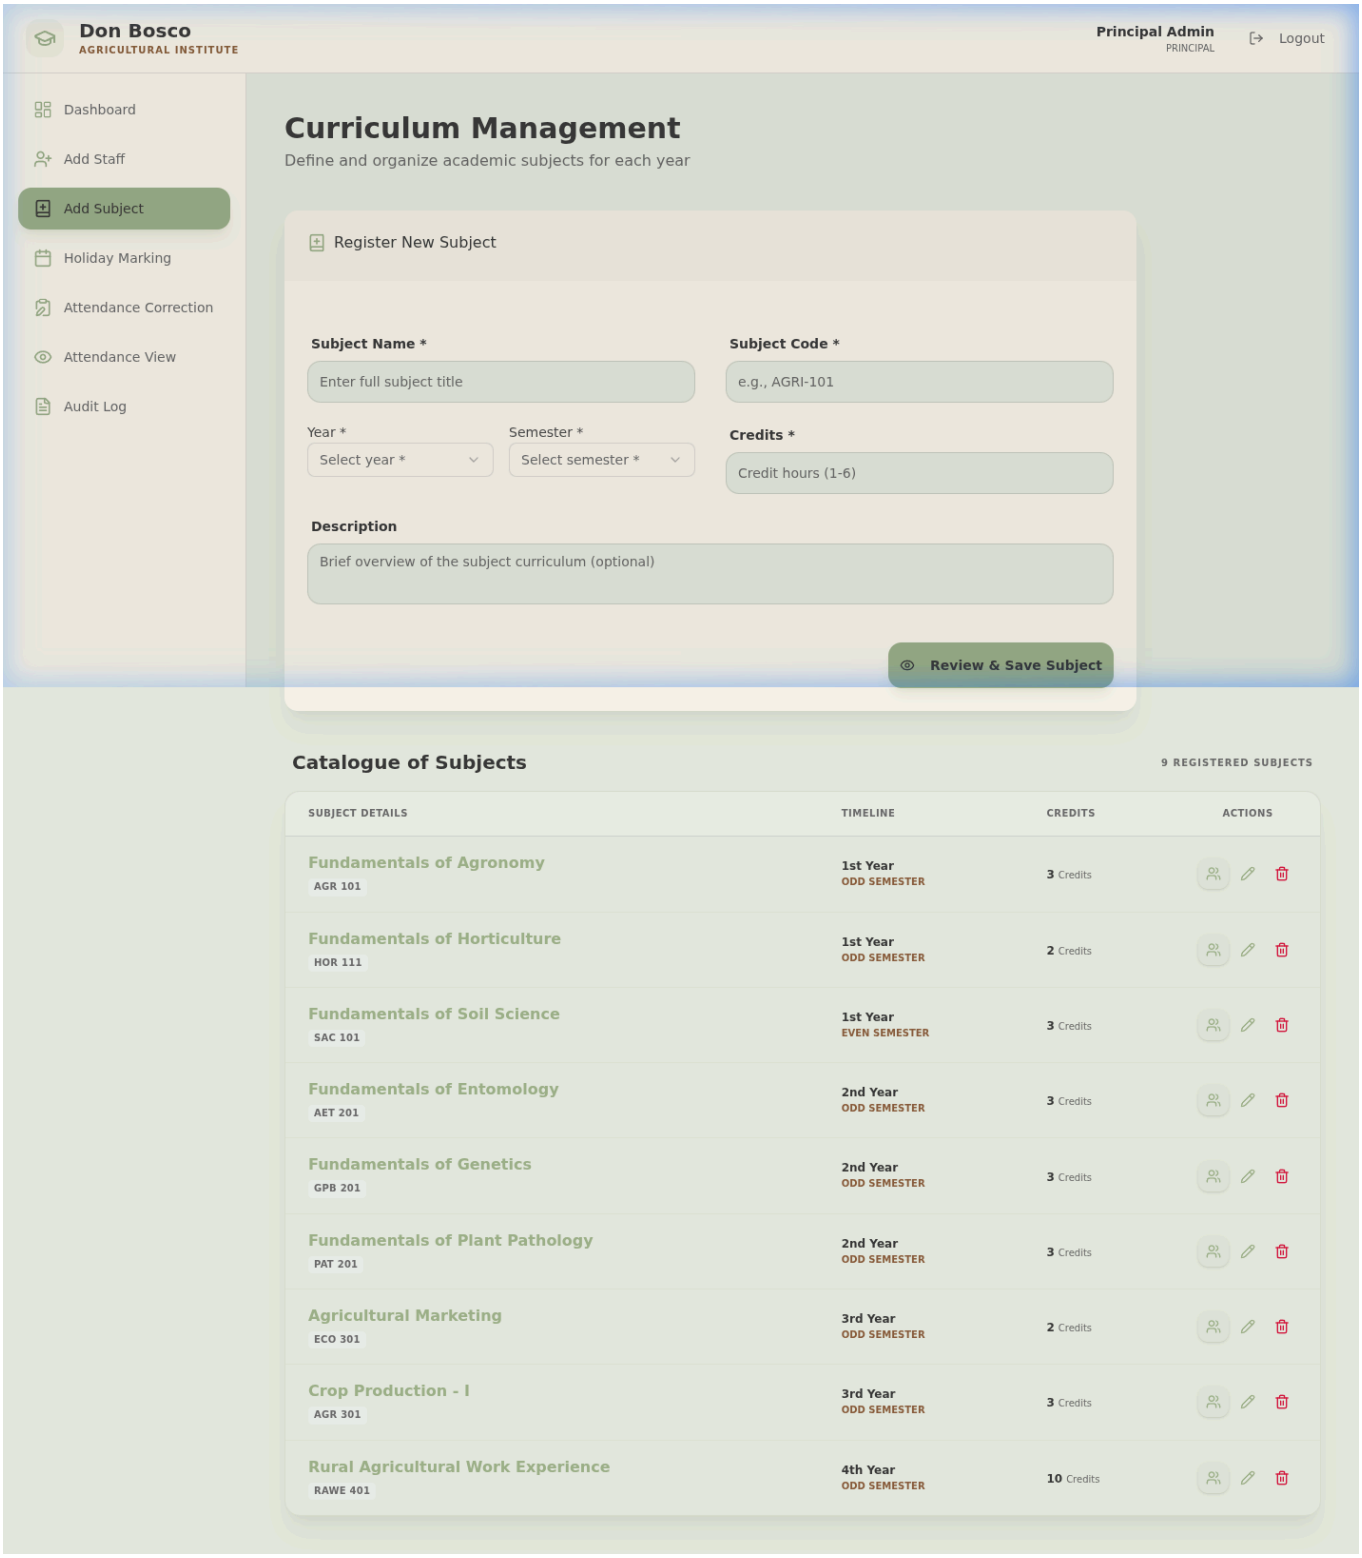

2.2 Staff Management

Administrators can add new staff members, manage existing profiles, and deactivate accounts. All data-modifying actions include a Preview or Confirmation step.

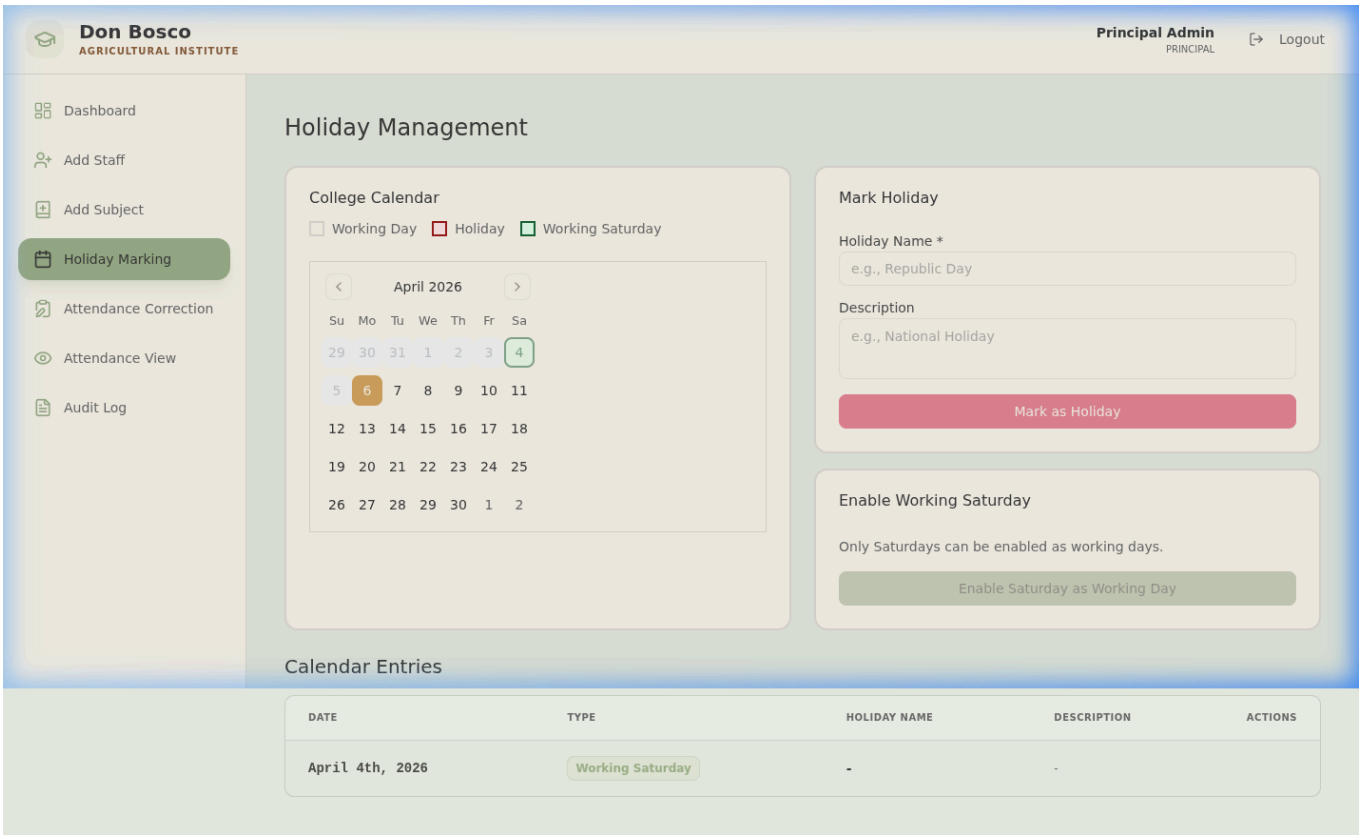

2.3 Subject Management

Manage academic subjects and their assignments. New subjects can be added with a preview modal to ensure data accuracy.

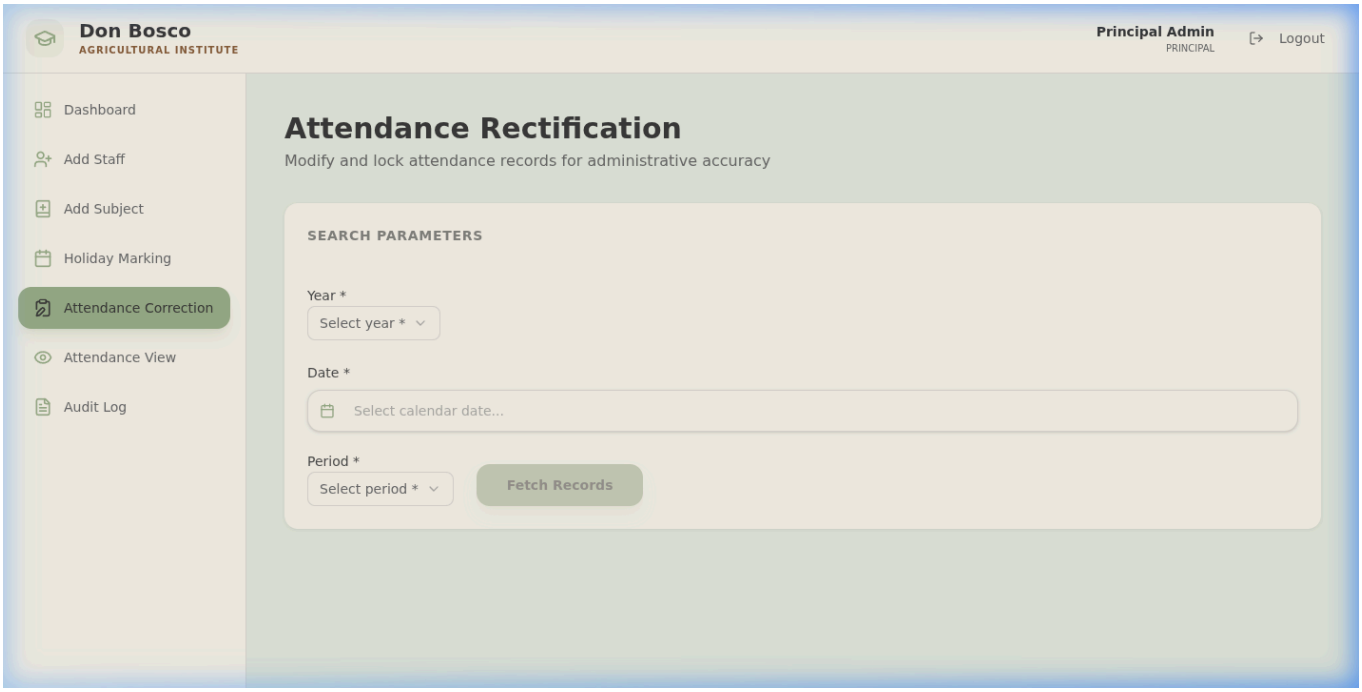

2.4 Holiday Marking

A centralized calendar to mark institutional holidays and special working Saturdays.

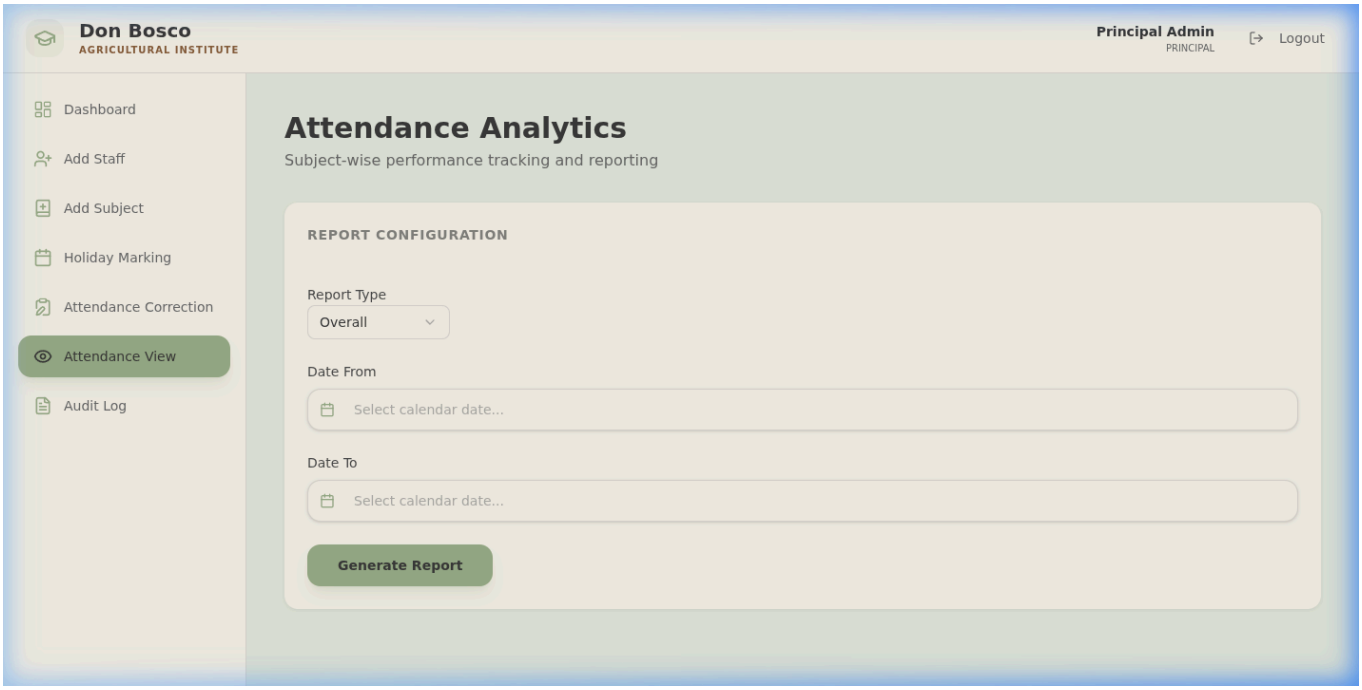

2.5 Attendance Correction

Allows the Principal to manually correct attendance records when discrepancies are identified.

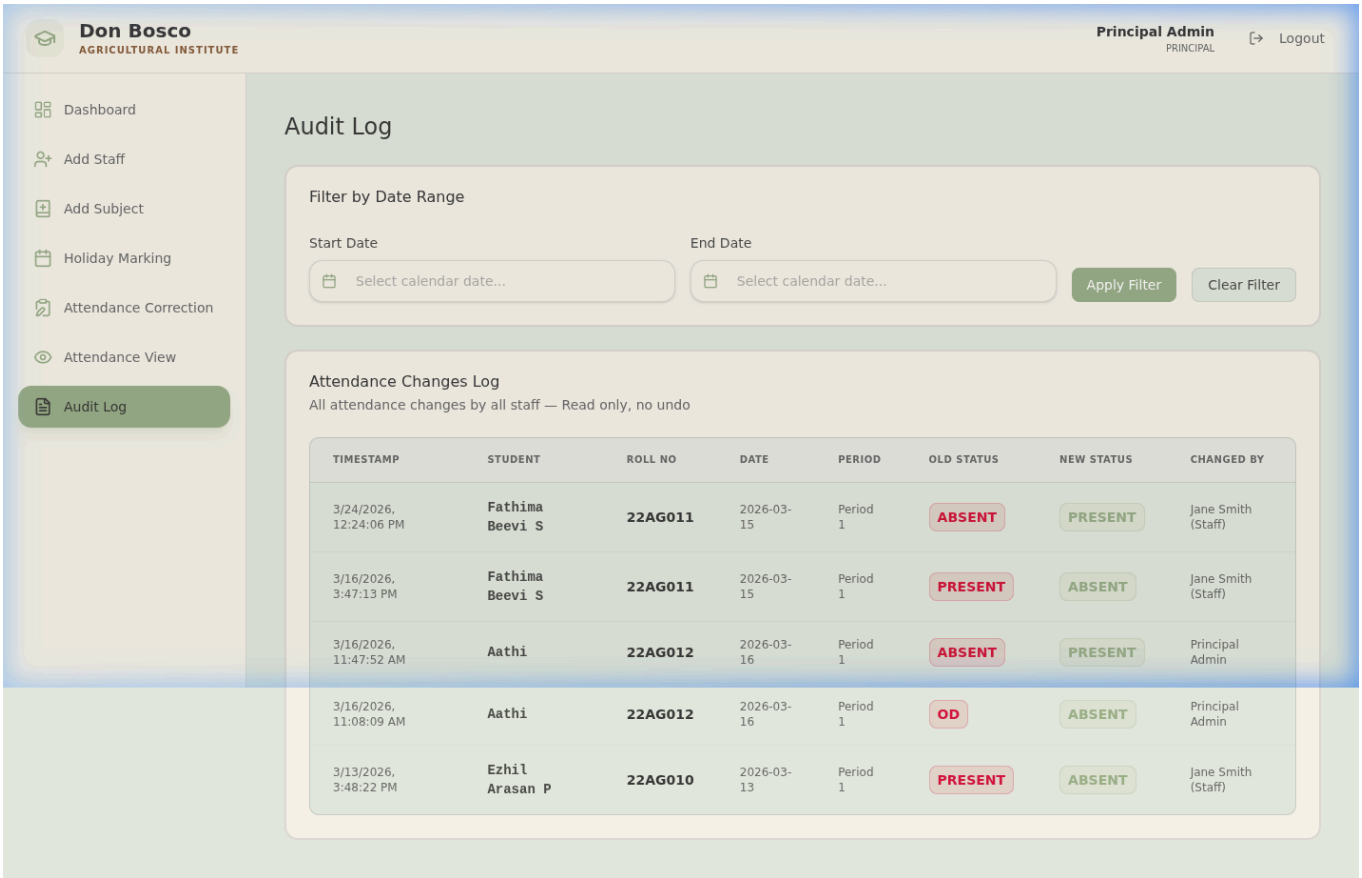

2.6 Attendance View

Detailed reports on student attendance across different years and departments.

2.7 Audit Log

Tracks all critical actions performed within the system for transparency and security.

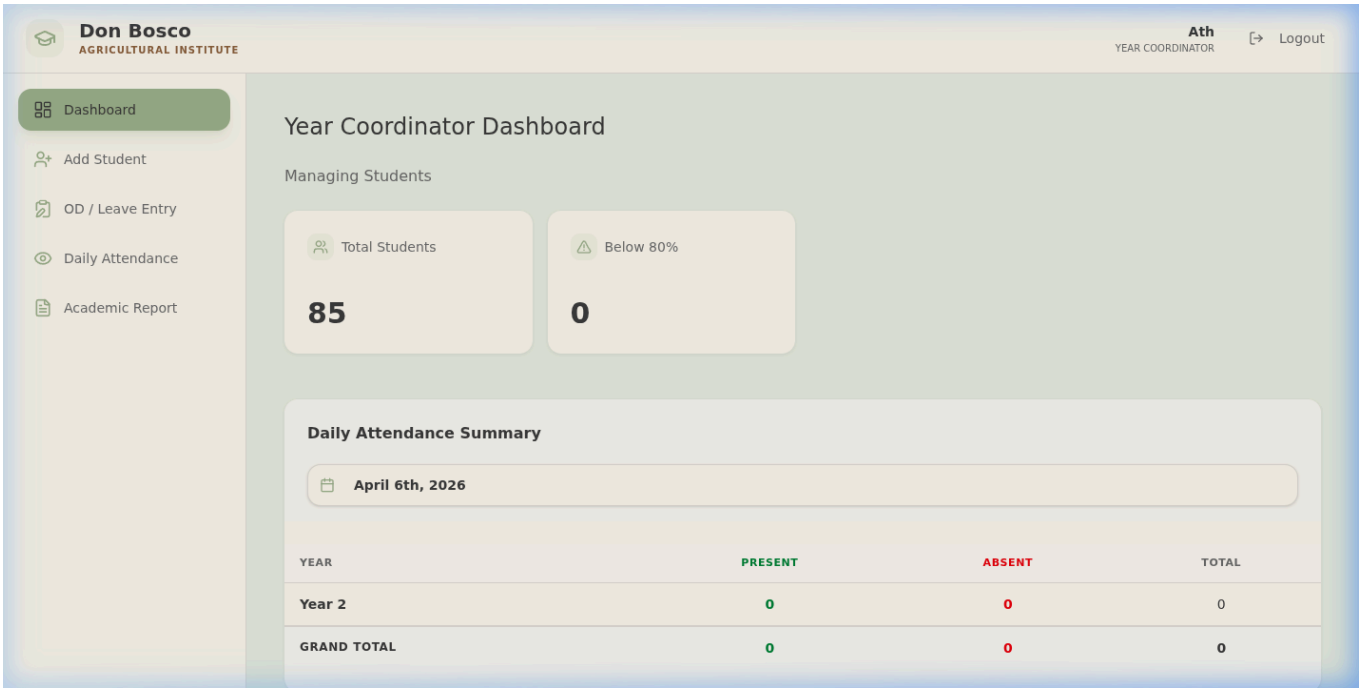

3. Year Coordinator (YC) Role

Year Coordinators manage students and attendance workflows within their assigned academic years.

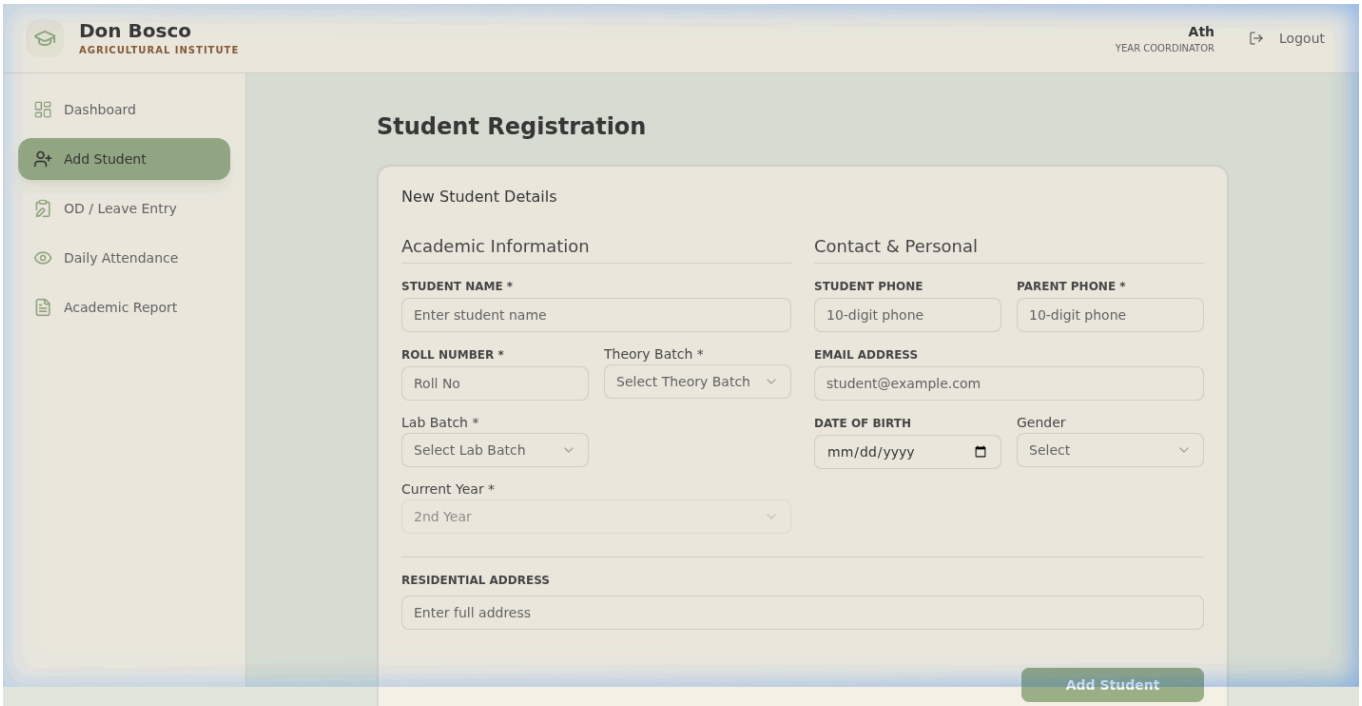

3.1 YC Dashboard

A dashboard tailored to the coordinator's assigned year, showing specific attendance trends and student counts.

3.2 Student Management

Register new students, update profiles, and manage student data.

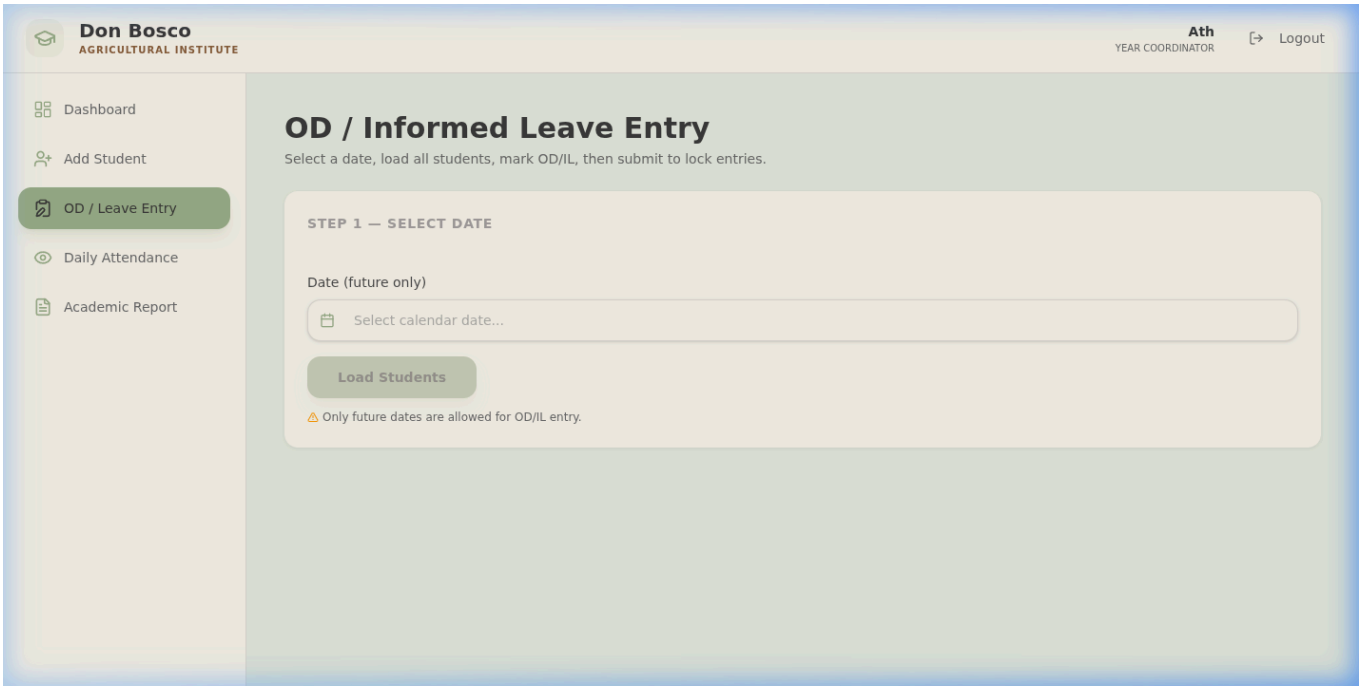

Added Students List

DB1132	Student (year 2) B 12	(year 2) B	(year 2) A	9123456732	

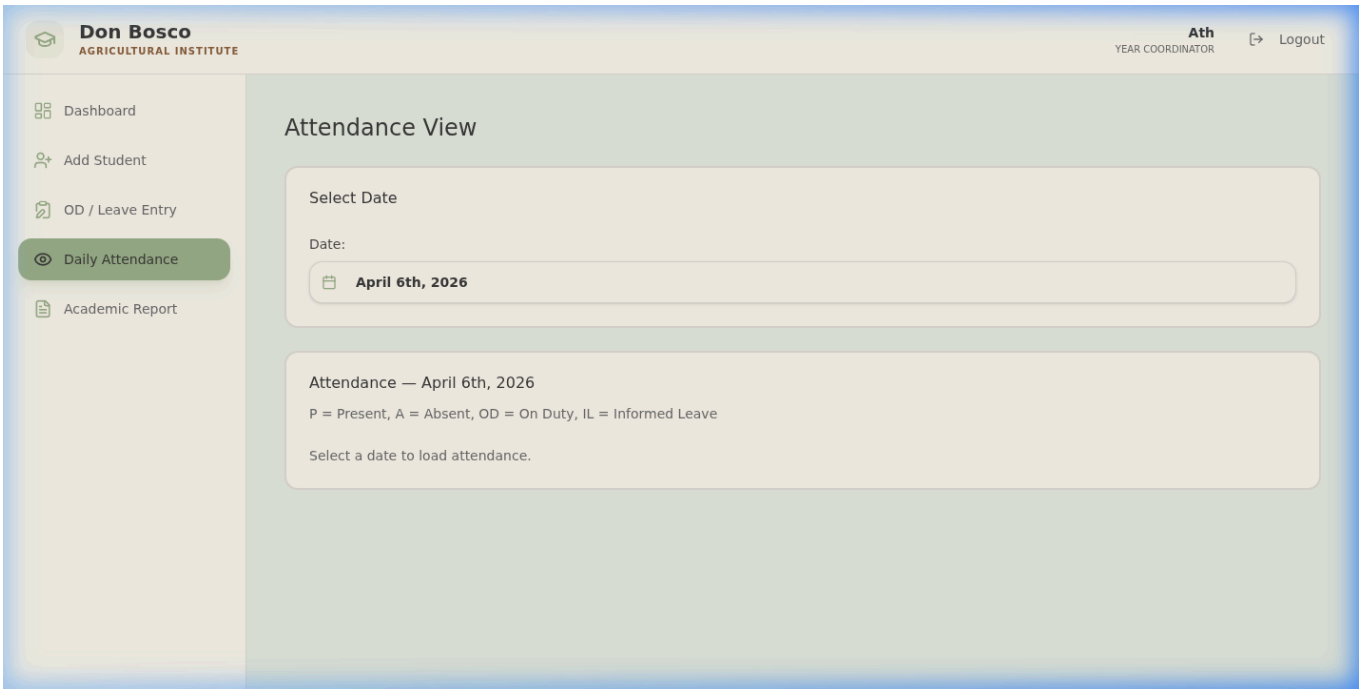

3.3 OD / Leave Entry

Coordinators can pre-mark On-Duty (OD) and Informed Leave (IL) for students, which automatically syncs with the staff's attendance interface.

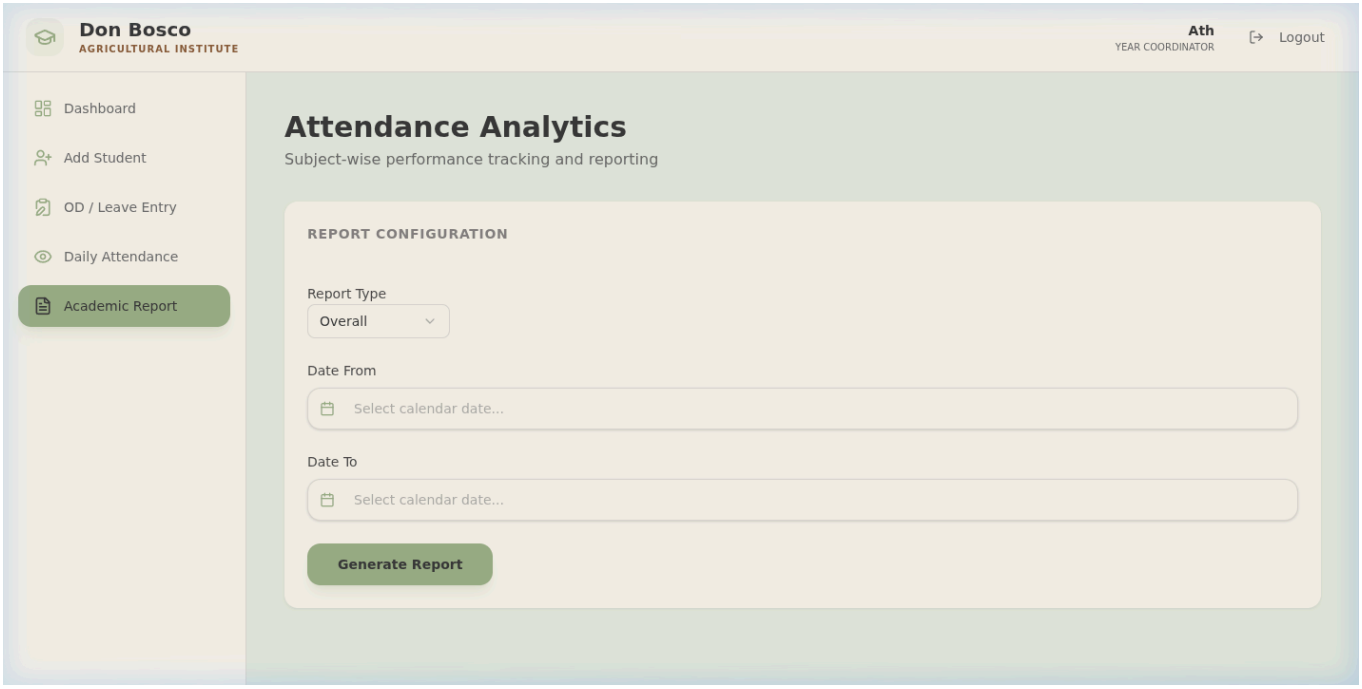

3.4 Daily Attendance

View the live status of attendance for the day across the coordinator's assigned subjects.

3.5 Academic Report

Comprehensive analytics for year-wise performance, allowing coordinators to generate reports for specific Date Ranges.

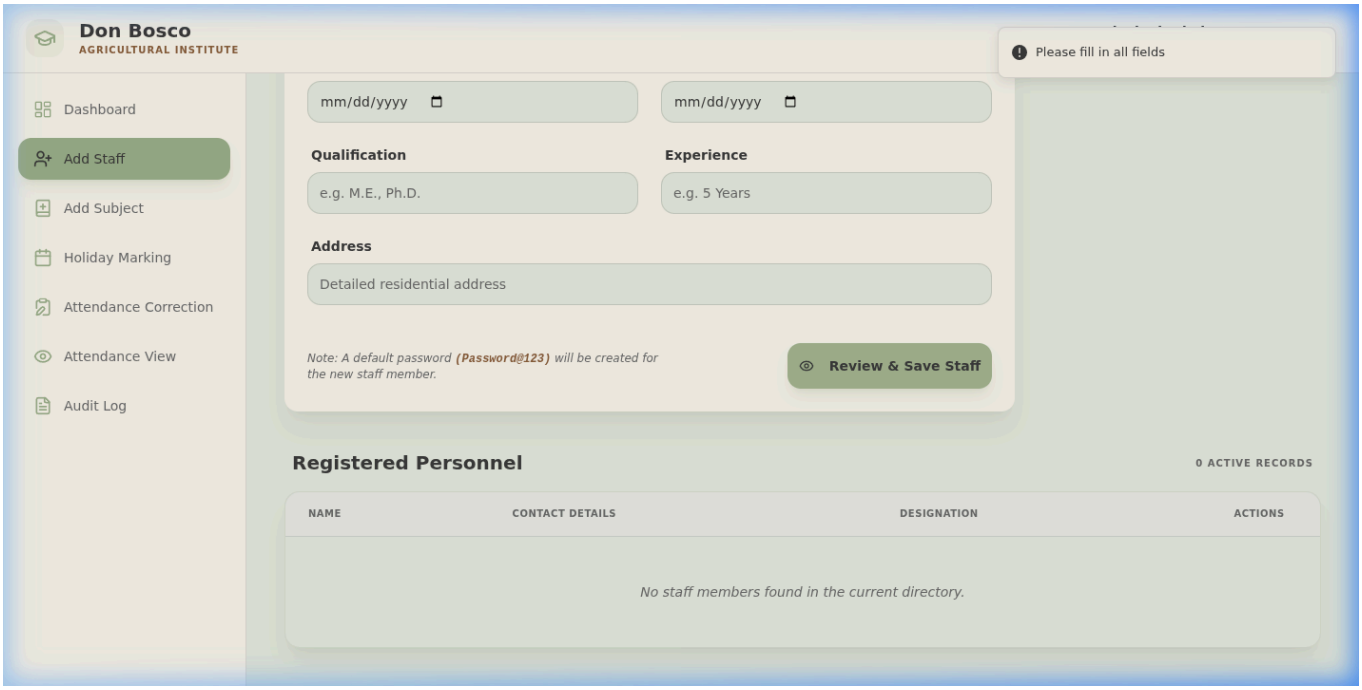

4. Safety Features: Preview & Confirmation

To prevent accidental data entry or loss, the system implements a mandatory "Review & Save" workflow for all critical operations.

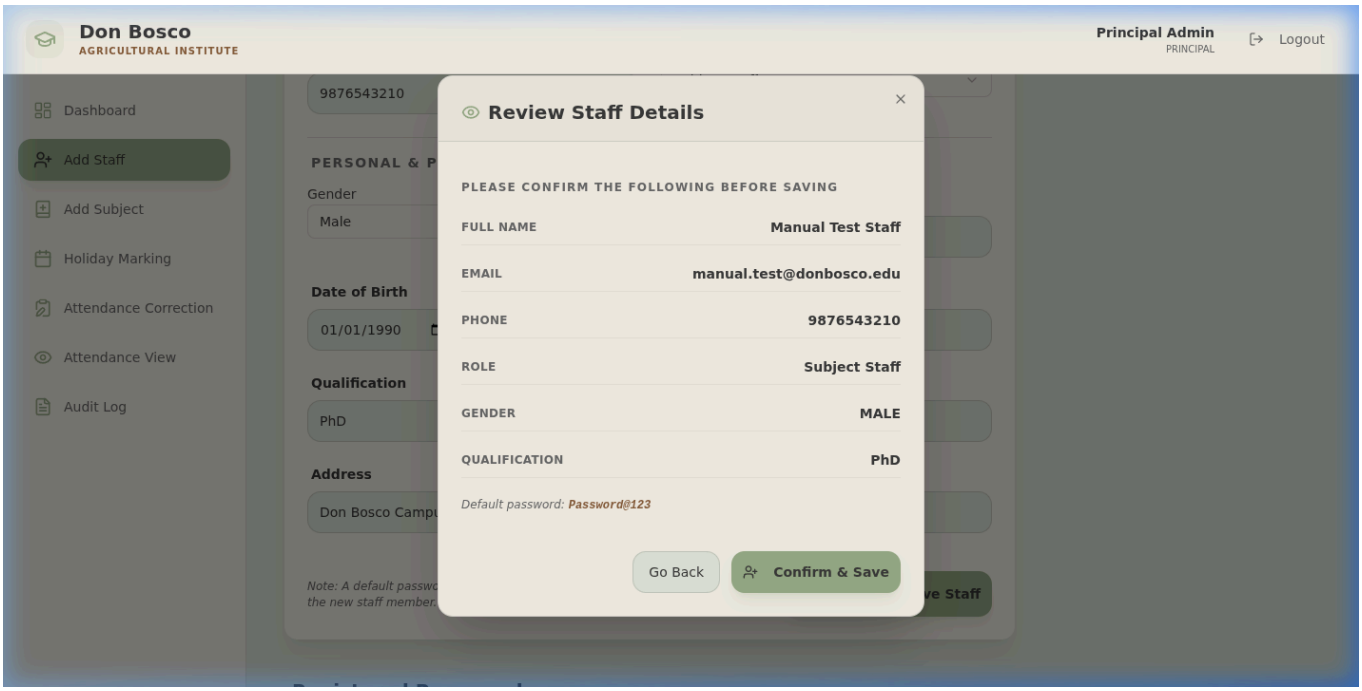

4.1 Preview Modals

Before any data is committed to the database, a preview modal displays the information to be saved. This ensures that the user can verify details before final submission.

4.2 Confirmation Dialogs

For destructive actions (like deactivating a staff member or deleting a subject), a clear, styled confirmation dialog is presented.
